# Safety data sheet according to Regulation (EC) No 1907/2006, Annex II

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

# **1.1 Product identifier**

œ

# Bremsen-Anti-Quietsch-Paste (Pinseldose) Brake Anti-Squeal Paste (can with brush)

**1.2** Relevant identified uses of the substance or mixture and uses advised against Relevant identified uses of the substance or mixture:

# Lubricant Uses advised against:

No information available at present.

# 1.3 Details of the supplier of the safety data sheet

LIQUI MOLY GmbH Jerg-Wieland-Str. 4 89081 Ulm-Lehr Tel.: (+49) 0731-1420-0 Fax: (+49) 0731-1420-88

Qualified person's e-mail address: info@chemical-check.de, k.schnurbusch@chemical-check.de Please DO NOT use for requesting Safety Data Sheets.

# 1.4 Emergency telephone number Emergency information services / official advisory body:

Telephone number of the company in case of emergencies: +49 (0) 700 / 24 112 112 (LMR) +1 872 5888271 (LMR)

# **SECTION 2: Hazards identification**

|              | of the substance or mix<br>cording to Regulation (E |  |
|--------------|---|--|
| Hazard class | Hazard category                                     | Hazard statement                                 |
| Skin Irrit.  | 2   | H315-Causes skin irritation.                     |
| Eye Dam.     | 1   | H318-Causes serious eye damage.                  |
| Aerosol      | 1   | H222-Extremely flammable aerosol.                |
| Aerosol      | 1   | H229-Pressurised container: May burst if heated. |

2.2 Label elements Labeling according to Regulation (EC) 1272/2008 (CLP)

Page 2 of 19

œ

Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 28.08.2022 / 0014 Replacing version dated / version: 01.11.2021 / 0013 Valid from: 28.08.2022 PDF print date: 24.04.2023 Bremsen-Anti-Quietsch-Paste (Pinseldose) Brake Anti-Squeal Paste (can with brush)

#### Danger

H315-Causes skin irritation. H318-Causes serious eye damage. H222-Extremely flammable aerosol. H229-Pressurised container: May burst if heated.

P101-If medical advice is needed, have product container or label at hand. P102-Keep out of reach of children. P210-Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P211-Do not spray on an open flame or other ignition source. P251-Do not pierce or burn, even after use. P280-Wear protective gloves / eye protection / face protection. P305+P351+P338-IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310-Immediately call a POISON CENTER / doctor.

P410+P412-Protect from sunlight. Do not expose to temperatures exceeding 50 °C.

EUH211-Warning! Hazardous respirable droplets may be formed when sprayed. Do not breathe spray or mist.

Without adequate ventilation, formation of explosive mixtures may be possible. Calcium dihydroxide

#### 2.3 Other hazards

The mixture does not contain any vPvB substance (vPvB = very persistent, very bioaccumulative) or is not included under XIII of the regulation (EC) 1907/2006 (< 0,1 %).

The mixture does not contain any PBT substance (PBT = persistent, bioaccumulative, toxic) or is not included under XIII of the regulation (EC) 1907/2006 (< 0.1 %).

The mixture does not contain any substance with endocrine disrupting properties (< 0,1 %).

For the text of the H-phrases and classification codes (GHS/CLP), see Section 16.

The substances named in this section are given with their actual, appropriate classification!

For substances that are listed in appendix VI, table 3.1 of the regulation (EC) no. 1272/2008 (CLP regulation) this means that all notes that may be given here for the named classification have been taken into account.

# **SECTION 4: First aid measures**

### 4.1 Description of first aid measures

First-aiders should ensure they are protected!

Never pour anything into the mouth of an unconscious person!

#### Inhalation

Remove person from danger area.

Supply person with fresh air and consult doctor according to symptoms.

#### Skin contact

Remove polluted, soaked clothing immediately, wash thoroughly with plenty of water and soap, in case of irritation of the skin (flare), consult a doctor.

#### Eye contact

Remove contact lenses.

Wash thoroughly for several minutes using copious water. Seek medical help if necessary.

### Ingestion

Rinse the mouth thoroughly with water.

Give copious water to drink - consult doctor immediately.

### 4.2 Most important symptoms and effects, both acute and delayed

If applicable delayed symptoms and effects can be found in section 11 and the absorption route in section 4.1. The following may occur: Irritation of the eyes Coughing

Dermatitis (skin inflammation) Irritation of the skin. Other dangerous properties cannot be ruled out.

In certain cases, the symptoms of poisoning may only appear after an extended period / after several hours.

4.3 Indication of any immediate medical attention and special treatment needed

n.c.

# SECTION 5: Firefighting measures

# 5.1 Extinguishing media

# Suitable extinguishing media

Water jet spray/foam/CO2/dry extinguisher

# Unsuitable extinguishing media

High volume water jet

# 5.2 Special hazards arising from the substance or mixture

In case of fire the following can develop:

Oxides of carbon Toxic pyrolysis products.

Danger of explosion by prolonged heating.

Explosive vapour/air or gas/air mixtures.

# 5.3 Advice for firefighters

For personal protective equipment see Section 8. In case of fire and/or explosion do not breathe fumes. Protective respirator with independent air supply.

Page 4 of 19 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 28.08.2022 / 0014 Replacing version dated / version: 01.11.2021 / 0013 Valid from: 28.08.2022 PDF print date: 24.04.2023 Bremsen-Anti-Quietsch-Paste (Pinseldose) Brake Anti-Squeal Paste (can with brush)

According to size of fire Full protection, if necessary. Cool container at risk with water. Dispose of contaminated extinction water according to official regulations.

# SECTION 6: Accidental release measures

# 6.1 Personal precautions, protective equipment and emergency procedures

# 6.1.1 For non-emergency personnel

In case of spillage or accidental release, wear personal protective equipment as specified in section 8 to prevent contamination.

Ensure sufficient ventilation, remove sources of ignition.

Avoid dust formation with solid or powder products. Leave the danger zone if possible, use existing emergency plans if necessary.

Remove possible causes of ignition - do not smoke.

Ensure sufficient supply of air.

Avoid inhalation, and contact with eyes or skin.

6.1.2 For emergency responders

See section 8 for suitable protective equipment and material specifications.

#### 6.2 Environmental precautions

If leakage occurs, dam up.

Resolve leaks if this possible without risk.

Prevent from entering drainage system.

Prevent surface and ground-water infiltration, as well as ground penetration.

### 6.3 Methods and material for containment and cleaning up

If spray or gas escapes, ensure ample fresh air is available.

Active substance:

ആ

Soak up with absorbent material (e.g. universal binding agent) and dispose of according to Section 13.

#### 6.4 Reference to other sections

For personal protective equipment see Section 8 and for disposal instructions see Section 13.

### **SECTION 7: Handling and storage**

In addition to information given in this section, relevant information can also be found in section 8 and 6.1.

# 7.1 Precautions for safe handling

# 7.1.1 General recommendations

Ensure good ventilation.

Keep away from sources of ignition - Do not smoke.

Do not use on hot surfaces. Avoid contact with eyes or skin.

Eating, drinking, smoking, as well as food-storage, is prohibited in work-room.

Observe directions on label and instructions for use.

Use working methods according to operating instructions.

#### 7.1.2 Notes on general hygiene measures at the workplace

General hygiene measures for the handling of chemicals are applicable.

Wash hands before breaks and at end of work.

Keep away from food, drink and animal feedingstuffs.

Remove contaminated clothing and protective equipment before entering areas in which food is consumed.

### 7.2 Conditions for safe storage, including any incompatibilities

Keep out of access to unauthorised individuals.

Not to be stored in gangways or stair wells.

Store product closed and only in original packing. Observe special regulations for aerosols!

Observe special storage conditions.

Observe special storage conditions.

Keep protected from direct sunlight and temperatures over 50°C.

#### Store in a well ventilated place. 7.3 Specific end use(s)

No information available at present.

Page 5 of 19 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 28.08.2022 / 0014 Replacing version dated / version: 01.11.2021 / 0013 Valid from: 28.08.2022 PDF print date: 24.04.2023 Bremsen-Anti-Quietsch-Paste (Pinseldose) Brake Anti-Squeal Paste (can with brush)

Observe the instructions for good working practice and the recommendations for risk assessment. Consult hazardous substance information systems, e.g. from the professional associations, the chemical industry or different industries, depending on the application (building materials, wood, chemistry, laboratory, leather, metal).

| Workers / employees | Human - inhalation   | Long term, local effects    | DNEL       | 10     | mg/m3      |      |

WEL-TWA = Workplace Exposure Limit - Long-term exposure limit (8-hour TWA (= time weighted average) reference period) EH40. AGW = "Arbeitsplatzgrenzwert" (workplace limit value, Germany).

(8) = Inhalable fraction (Directive 2017/164/EU, Directive 2004/37/CE). (9) = Respirable fraction (Directive 2017/164/EU, Directive 2004/37/CE). (11) = Inhalable fraction (Directive 2004/37/CE). (12) = Inhalable fraction. Respirable fraction in those Member States that implement, on the date of the entry into force of this Directive, a biomonitoring system with a biological limit value not exceeding 0,002 mg Cd/g creatinine in urine (Directive 2004/37/CE). | WEL-STEL = Workplace Exposure Limit - Short-term exposure limit (15-minute reference period).

(8) = Inhalable fraction (2017/164/EU, 2017/2398/EU). (9) = Respirable fraction (2017/164/EU), 2017/2398/EU). (10) = Short-term exposure limit value in relation to a reference period of 1 minute (2017/164/EU). | BMGV = Biological monitoring guidance value EH40. BGW = "Biologischer Grenzwert" (biological limit value, Germany) | Other information: Sen = Capable of causing occupational asthma. Sk = Can be absorbed through skin. Carc = Capable of causing cancer and/or heritable genetic damage.

\*\* = The exposure limit for this substance is repealed through the TRGS 900 (Germany) of January 2006 with the goal of revision. (13) = The substance can cause sensitisation of the skin and of the respiratory tract (Directive 2004/37/CE), (14) = The substance can cause sensitisation of the skin (Directive 2004/37/CE).

# 8.2 Exposure controls 8.2.1 Appropriate engineering controls

Ensure good ventilation. This can be achieved by local suction or general air extraction.

If this is insufficient to maintain the concentration under the WEL or AGW values, suitable breathing protection should be worn.

Applies only if maximum permissible exposure values are listed here.

Suitable assessment methods for reviewing the effectiveness of protection measures adopted include metrological and non-metrological investigative techniques.

These are specified by e.g. EN 14042.

Page 7 of 19 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 28.08.2022 / 0014 Replacing version dated / version: 01.11.2021 / 0013 Valid from: 28.08.2022 PDF print date: 24.04.2023 Bremsen-Anti-Quietsch-Paste (Pinseldose) Brake Anti-Squeal Paste (can with brush)

EN 14042 "Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents".

### 8.2.2 Individual protection measures, such as personal protective equipment

General hygiene measures for the handling of chemicals are applicable. Wash hands before breaks and at end of work. Keep away from food, drink and animal feedingstuffs. Remove contaminated clothing and protective equipment before entering areas in which food is consumed.

Eye/face protection: With danger of contact with eyes. Tight fitting protective goggles with side protection (EN 166).

Skin protection - Hand protection: Chemical resistant protective gloves (EN ISO 374). Recommended Protective nitrile gloves (EN ISO 374). Minimum layer thickness in mm: 0,4 Permeation time (penetration time) in minutes: 480

Protective hand cream recommended.

The breakthrough times determined in accordance with EN 16523-1 were not obtained under practical conditions. The recommended maximum wearing time is 50% of breakthrough time.

Skin protection - Other: Protective working garments (e.g. safety shoes EN ISO 20345, long-sleeved protective working garments).

Respiratory protection: Normally not necessary.

ആ

Thermal hazards: If applicable, these are included in the individual protective measures (eye/face protection, skin protection, respiratory protection).

Additional information on hand protection - No tests have been performed.

In the case of mixtures, the selection has been made according to the knowledge available and the information about the contents. Selection of materials derived from glove manufacturer's indications.

Final selection of glove material must be made taking the breakthrough times, permeation rates and degradation into account. Selection of a suitable glove depends not only on the material but also on other quality characteristics and varies from manufacturer to manufacturer.

In the case of mixtures, the resistance of glove materials cannot be predicted and must therefore be tested before use. The exact breakthrough time of the glove material can be requested from the protective glove manufacturer and must be observed.

### 8.2.3 Environmental exposure controls

No information available at present.

# **SECTION 9: Physical and chemical properties**

# 9.1 Information on basic physical and chemical properties

| Physical state:   | Aerosol. Active substance: liquid.                   |
|---|--|
| Colour:   | According to specification                           |
| Odour:  | Characteristic                                       |
| Melting point/freezing point:                             | There is no information available on this parameter. |
| Boiling point or initial boiling point and boiling range: | There is no information available on this parameter. |
| Flammability:   | Does not apply to aerosols.                          |
| Lower explosion limit:                                    | There is no information available on this parameter. |
| Upper explosion limit:                                    | There is no information available on this parameter. |
| Flash point:  | Does not apply to aerosols.                          |
| Auto-ignition temperature:                                | Does not apply to aerosols.                          |
| Decomposition temperature:                                | There is no information available on this parameter. |
| pH:   | There is no information available on this parameter. |
| Kinematic viscosity:                                      | Does not apply to aerosols.                          |

# 9.2 Other information

Explosives:

Oxidising liquids:

There is no information available on this parameter. Does not apply to mixtures. There is no information available on this parameter. Does not apply to aerosols. Does not apply to aerosols. Does not apply to aerosols.

Product is not explosive. Possible build up of explosive/highly flammable vapour/air mixture. No

# **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

The product has not been tested.

10.2 Chemical stability

# Stable with proper storage and handling.

**10.3 Possibility of hazardous reactions** No decomposition if used as intended.

# 10.4 Conditions to avoid

Heating, open flame, ignition sources

Pressure increase will result in danger of bursting.

# **10.5 Incompatible materials**

Avoid contact with strong oxidizing agents.

# **10.6 Hazardous decomposition products**

No decomposition when used as directed.

# **SECTION 11: Toxicological information**

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Possibly more information on health effects, see Section 2.1 (classification).

# **SECTION 13: Disposal considerations**

# 13.1 Waste treatment methods

### For the substance / mixture / residual amounts

EC disposal code no.:

The waste codes are recommendations based on the scheduled use of this product.

Owing to the user's specific conditions for use and disposal, other waste codes may be

allocated under certain circumstances. (2014/955/EU)

12 01 12 spent waxes and fats

16 05 04 gases in pressure containers (including halons) containing hazardous substances Recommendation:

Sewage disposal shall be discouraged.

Pay attention to local and national official regulations.

E.g. suitable incineration plant.

Page 16 of 19 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 28.08.2022 / 0014 Replacing version dated / version: 01.11.2021 / 0013 Valid from: 28.08.2022 PDF print date: 24.04.2023 Bremsen-Anti-Quietsch-Paste (Pinseldose) Brake Anti-Squeal Paste (can with brush)

#### E.g. dispose at suitable refuse site. For contaminated packing material

Pay attention to local and national official regulations.

Recommendation: Do not perforate, cut up or weld uncleaned container.

15 01 04 metallic packaging

ആ

15 01 10 packaging containing residues of or contaminated by hazardous substances

### **SECTION 14: Transport information**

#### **General statements** Transport by road/by rail (ADR/RID) 14.1. UN number or ID number: 1950 14.2. UN proper shipping name: UN 1950 AEROSOLS 14.3. Transport hazard class(es): 2.1 14.4. Packing group: 14.5. Environmental hazards: Not applicable Tunnel restriction code: D Classification code: 5F 10: 11 Transport category: 2 Transport by sea (IMDG-code) 14.1. UN number or ID number: 1950 14.2. UN proper shipping name: **UN 1950 AEROSOLS** 14.3. Transport hazard class(es): 2.1 14.4. Packing group: 14.5. Environmental hazards: Not applicable Marine Pollutant: Not applicable EmS: F-D, S-U Transport by air (IATA) 14.1. UN number or ID number: 1950 14.2. UN proper shipping name: UN 1950 Aerosols, flammable 14.3. Transport hazard class(es): 2.1 14.4. Packing group: 14.5. Environmental hazards: Not applicable 14.6. Special precautions for user Persons employed in transporting dangerous goods must be trained. All persons involved in transporting must observe safety regulations. Precautions must be taken to prevent damage. 14.7. Maritime transport in bulk according to IMO instruments Freighted as packaged goods rather than in bulk, therefore not applicable. Minimum amount regulations have not been taken into account. Danger code and packing code on request. Comply with special provisions.

# **SECTION 15: Regulatory information**

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Observe restrictions:

Comply with national regulations/laws governing the protection of young people at work (national implementation of the Directive 94/33/EC)! Comply with trade association/occupational health regulations.

Directive 2012/18/EU ("Seveso III"), Annex I, Part 1 - The following categories apply to this product (others may also need to be considered according to storage, handling etc.):

Page 17 of 19 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II Revision date / version: 28.08.2022 / 0014 Replacing version dated / version: 01.11.2021 / 0013 Valid from: 28.08.2022 PDF print date: 24.04.2023 Bremsen-Anti-Quietsch-Paste (Pinseldose) Brake Anti-Squeal Paste (can with brush)

| Hazard categories | Notes to Annex I | Qualifying quantity (tonnes) of      | Qualifying quantity (tonnes) of      |
|-------------------|------------------|--------------------------------------|--------------------------------------|
|                   |                  | dangerous substances as              | dangerous substances as              |
|                   |                  | referred to in Article 3(10) for the | referred to in Article 3(10) for the |
|                   |                  | application of - Lower-tier          | application of - Upper-tier          |
|                   |                  | requirements                         | requirements                         |
| P3a               | 11.1             | 150 (netto)                          | 500 (netto)                          |

The Notes to Annex 1 of Directive 2012/18/EU, in particular those named in the tables here and notes 1-6, must be taken into account when assigning categories and qualifying quantities.

Directive 2012/18/EU ("Seveso III"), Annex I, Part 2 - This product contains the substances listed below:

| Entry Nr                  | Dangerous substances  | Notes to Annex I | Qualifying quantity<br>(tonnes) for the<br>application of - Lower-tier<br>requirements | Qualifying quantity<br>(tonnes) for the<br>application of - Upper-tier<br>requirements |
|---------------------------|---|------------------|--|--|
| 18<br>The Notes to Append | Liquefied flammable<br>gases, Category 1 or 2<br>(including LPG) and<br>natural gas | 19               | 50   | 200  |

The Notes to Annex 1 of Directive 2012/18/EU, in particular those named in the tables here and notes 1-6, must be taken into account when assigning categories and qualifying quantities.

Directive 2010/75/EU (VOC):

œ

< 3,85 %

Observe incident regulations.

National requirements/regulations on safety and health protection must be applied when using work equipment.

#### 15.2 Chemical safety assessment

A chemical safety assessment is not provided for mixtures.

# **SECTION 16: Other information**

8

Revised sections:

Employee training in handling dangerous goods is required. These details refer to the product as it is delivered. Employee instruction/training in handling hazardous materials is required.

# Classification and processes used to derive the classification of the mixture in accordance with the ordinance (EG) 1272/2008 (CLP):

| Classification in accordance with regulation<br>(EC) No. 1272/2008 (CLP) | Evaluation method used                              |
|--|---|
| Skin Irrit. 2, H315  | Classification according to calculation procedure.  |
| Eye Dam. 1, H318   | Classification according to calculation procedure.  |
| Aerosol 1, H222  | Classification according to calculation procedure.  |
| Aerosol 1, H229  | Classification based on the form or physical state. |

The following phrases represent the posted Hazard Class and Risk Category Code (GHS/CLP) of the product and the constituents (specified in Section 2 and 3).

H351 Suspected of causing cancer by inhalation.

H304 May be fatal if swallowed and enters airways.

H315 Causes skin irritation.

H318 Causes serious eye damage.

H335 May cause respiratory irritation.

Skin Irrit. — Skin irritation Eye Dam. — Serious eye damage Aerosol — Aerosols STOT SE — Specific target organ toxicity - single exposure - respiratory tract irritation
